

## Elite TT280/TT400 Table Top Slitter Rewinder

The Elite TT280 / TT400 Table Top Label Slitter rewriter was introduced into the Elite range as a low cost, high specification bench top slitter rewriter, as standard it has now been fitted with our unique cartridge rotary slitting system. The Elite TT280 / TT400 label rewriter is a small compact unit that can offer flexibility and high performance at speeds of up to 180 metres per minute.

The TT280 / TT400 Table Top Bench top Label Slitter Rewinder has a simple web path and operator friendly controls. The machine is also fitted with a fixed splice table and air web clamp to make joins on the material much easier and faster.

The TT280 / TT400 Label Slitter Rewinder has an unwind friction brake, and a silicone covered nip roller drives the web through the machine. The rewinding system is fitted with a torque motor to ensure the tension is maintained throughout the finished roll and eliminates the coning effect that you see on some slitter rewinders.

The TT280 / TT400 Table Top Bench top label Slitter Rewinder is very competitively priced and makes an ideal starter label slitter rewriter
